“ My favorite memory with Rachael is when she lived in the big blue house in Paterson. She was just a little girl and wanted to paint my nails. She used different colors and did a great job on them we bonded that day and our love for one another grew from that day forward. I loved her so much. She was my favorite niece because of that day. She will be missed very much. I love you Rachael. Rest now. And give Dave a kiss from all of us

Rachael, no matter what you HAVE ALWAYS been my favorite cousin. I always loved being with you and spending time with you. You were more like my sister or best friend when we were growing up. I couldnt wait for weekends at dads so we could go get you, load up on Kool aid chips and dip and whatever else goodies you and aunt Sharon would get for us for the camper out in the driveway lol and play uno all weekend long and just jam to music. As adults and when u started to get sick, it broke my heart. Because we fell apart. Things were said that were never true and I wish I wouldve had more time with you to be able to talk to you and confront ppl and prove it to them and you. I never ever wouldve done anything harmful to you. Im sure dad told u when u got there, cuz he was already up there waiting on you. So I feel more at peace with that, because as long as you know, thats all I care about. I really wish you never got sick tho, and never had to go thru ANY headaches or seizures or anything else. I will always love you and never ever forget about how me you and lil dave and all the kearnes boys and everyone else in Patterson would all meet up and play fight out in the front yard b4 the move to the house with the pond. I love you always and keep those memories dear to my heart. Rest easy I love you always
